Classified & Display Ad Deadlines

The deadline for classified ads for the next issue is Aug. 26. Display ad space must be reserved by Aug. 21.

If your ads are not received by this deadline, they will not be published in the next issue.

Please limit ads to 25-30 words. There is a \$5 charge for ads over 30 words.

Classified Cost

Cotton Electric members are entitled to two free ads *per membership* per month. Additional ads or ads over 30 words can be purchased for \$5 per ad.

Not a member, but still want to advertise? Ads must be prepaid, so enclose \$5 with your ad to guarantee placement.

Contact Us

Ads can be sent in the mail or be dropped off at Cotton Electric, 226 N. Broadway, Walters, OK 73572. Ads can also be dropped off at the Duncan office, 1101 W. Oak.

Ads can be emailed to classifieds@cottonelectric.com or they can be sent via fax to 580-875-3101. Place an ad by phone by calling 580-875-3351.

UNCOMFORTABLE?

Does your home have any of these symptoms?

- ☐ Rooms that get too hot or too cold?
- ☐ High utility bills?
- ☐ Thermostat wars with your spouse?
- ☐ High humidity in summer?
- ☐ House just never seems comfortable?
- ☐ There doesn't seem to be enough airflow?
- ☐ Dust buildup within 2 days of dusting?
- ☐ Problems with your system since it's been installed?
- ☐ Anyone with allergies or asthma?
- ☐ AC starts and stops frequently or runs all the time, and house is still not cool?

☐ Have been told by other contractors that the problem cannot be fixed?

If you answered **YES** to any of these questions, we can help!

Pippin Brothers has specialists that can pinpoint and correct these problems and, in many cases, you don't even have to replace your equipment, with the solution usually being easier and costing a lot less than you may think. There is no other contractor in Lawton more qualified than Pippin Brothers at diagnosing and correcting these annoying, inconvenient, unhealthy, comfort-compromising and energy-wasting concerns. Call us today and let us make your home **Feel As Good As It Looks!** After all, your home is your largest investment and you and your family deserve to be comfortable - don't you?

**Get the Most from Your 401(k)**

You won't see any greeting cards celebrating it, and it's not likely to be on your calendar, but in just a few weeks, National 401(k) Day will be observed. And this type of recognition may be warranted, too, because 401(k) plans have become key building blocks for a big part of people's lives – a comfortable retirement. Are you making the most of your 401(k)?

Of course, during the past few months, you may have had mixed feelings about your 401(k). After all, at the beginning of the coronavirus, when the financial markets tumbled, the value of your account probably fell significantly, although it has likely regained some ground since the initial drop.

Nonetheless, the recent market volatility and its short-term effects on your 401(k) should not unduly influence your decisions about this important retirement account. After all, a 401(k) is truly a long-term vehicle, in every sense – you contribute to it for decades while you're working, and you can draw on it, along with other sources of

income, for decades during your retirement. Consequently, you'll want to consistently review your account to ensure it is working hard for you.

Here are a few suggestions:

Get the match. At a minimum, put enough into your 401(k) to earn your employer's matching contribution, if one is offered. While employers can set their own rules, a typical match is 50% of what you put in, up to 6% of your salary. So, if you don't contribute the amount needed to earn the match, you are essentially "leaving money on the table." (Be aware, though, that some employers have temporarily suspended matching contributions in

response to the economic slowdown during the pandemic.)

Give yourself regular "raises." Every time your salary goes up, increase your annual contributions. Most people typically don't come anywhere near hitting the maximum annual 401(k) contribution limit (which, in 2020, is \$19,500, or \$26,000 for those 50 or older), and you might not, either, but try to put in as much as you can afford. Not only will you be building tax-deferred resources for retirement, but you'll be giving yourself a big tax break, because the more you contribute each year, the lower your taxable income (unless you have a Roth 401(k), in which

case your contributions aren't deductible, but your earnings can grow tax-free).

Invest for growth. Because your 401(k) is designed to help fund your retirement, which could last 20 years or more, you'll want to build the biggest account possible. That means you'll need to include investments designed to provide growth within your 401(k), subject to your personal risk tolerance.

Be careful about loans. You can take out loans from your 401(k), but it's not always a good move. You'll have to pay yourself back, and if you leave your job, either voluntarily or involuntarily, the repayment

may be due at an inconvenient time. (However, as part of the CARES economic stimulus act, many 401(k) loan repayments are being suspended for up to one year.) Furthermore, by taking out money from your account, even temporarily, you can slow its overall growth potential. So, you may want to look for other sources of income before tapping into your 401(k).

National 401(k) Day is just that – a day. But by taking the appropriate steps, you can help ensure your own 401(k) gives you many years' worth of benefits.

research collected from the U.S. Department of Energy

Is Your Water Safe?

Give Your Back a Break...Stop Adding Salt to Your Softener

Minerals in your water form scale deposits that build up inside your pipes, water heater, shower heads, and other water using equipment like cholesterol in your arteries. These deposits significantly decrease the efficiency of your plumbing systems. Drinking water and icemakers are also negatively affected, as are health quality of water and taste. Hard water is not safe for you, your family or your home.

Benefits of a No-Salt Water Conditioning System:

- ▣ Maintain healthy calcium & magnesium levels
- ▣ No sodium added to water
- ▣ No waste water vs. up to 10,000 gallons per year with salt softeners
- ▣ No environmental discharge of salt or chemicals
- ▣ Reduces iron staining

- ▣ Extends appliance life by 50% or more
- ▣ Descals inside of pipes & water heater
- ▣ Cleaner bodies, clothes, and dishes
- ▣ 25% or more reduced detergent use
- ▣ Clothing will last longer
- ▣ Cleaner more refreshing water

▣ Improves water heater efficiency and thus lowers energy bills

Parting Shots

Heavy Equipment Operator Chuck Ballard, left, remotely operates a bucket truck to lift a broken utility pole out of the ground with the assistance of Vegetation Management Worker Ryan Ledford. The pole was damaged during the July 30 storm.

Once a damaged pole is extracted, a new hole is dug into the ground to make room for a replacement pole. From left, Journeyman Linemen Shayne White and Kyle Linthicum join Ledford and Ballard to prepare for a new utility pole.
