COPPER THEFT isn't just a felony ...

"Copper stealing, removing, or aiding in copper theft is a felony met with certain penalties. Any person who shall receive, transport, or possess in this state stolen copper wire, copper cable, or copper tubing under such circumstances that he knew or should have known that the same was stolen shall upon conviction thereof be guilty of a felony and shall be confined in the State Penitentiary for a term of not less than one year nor more than five years, or shall be confined in the county jail for not less than ninety days nor more than two hundred days, or shall be fined not less than \$100.00 nor more than \$500.00, or both such fine and imprisonment." Okla. Statute Title 21§1727

... it's deadly.

Copper thieves can pay a very high price for trying to steal a few dollars worth of metal. Contact with high-voltage electrical current results in severe injury, possibly death.

It just isn't worth it.

Please call your county sheriff if you see any suspicious activity around co-op equipment.
