Early Detection Saves Lives!

FREE Lung Screening For High Risk Individuals

ABOUT THE PROGRAM

- Lung cancer is the leading cause of cancer death for both men and women worldwide.
- Nearly 160,000 Americans die of lung cancer each year.

Based on findings of the National Lung Screening Trial (NLST), we know that CT lung screening can save lives of people at high risk for developing lung cancer.

Low-dose CT (LDCT) lung screening is quick and easy and results in a minimal amount of radiation exposure. The Cancer Centers of Southwest Oklahoma is determined to raise awareness and improve access to this testing for all people at high risk. Therefore, Cancer Centers of Southwest Oklahoma and Jackson County Memorial Hospital are now offering in conjunction **FREE LDCT lung screening** to individuals who meet the established high-risk criteria.

QUALIFICATION CRITERIA

You may qualify for a free LDCT lung screening if you fall into one of these categories:

Category 1	Category 2
You are between 55 and 74 years of age	You are between 50 and 74 years old
You are currently a smoker or have quit in the last 15 years	You have a 20+ pack-year* history of smoking
You have a 30+ pack-year* history of smoking	You have one additional lung cancer risk factor (not to include secondhand smoke exposure)

*pack-years are calculated by multiplying the number of packs a day you smoke by the number of years you have smoked.

Example: 2 packs a day for 15 years = 30 pack-years

Call to schedule a screening
1-877-231-4440 to see if you qualify.

The Touchstone Energy hot air balloon dwarfs Cotton Electric lineman Matt Winburn, in blue, and one of three Cotton Electric bucket trucks serving as anchors. Weather forecasts looked favorable, and the balloon came to town for Cotton Electric's 76th Annual Meeting. However, the 5.5 to 14 mph breeze was a little too stiff for the 77-foot-tall balloon to make any flights.
